Loans and advances are carried at book value as the amount of ultimate realization cannot be determined at this date.

No provision is made for commitments under construction contracts in force at March 31, 1969. Such future construction is chargeable to appropriations in the years in which the work is actually performed.

In my opinion the statement of financial condition is properly drawn up so as to show the true position of the Province of British Columbia at March 31, 1969, and is in accordance with the books of the Province.

REPORT OF THE AUDITORS

The Lieutenant-Governor in Council, Province of British Columbia:

We have examined the balance-sheet of British Columbia Hydro and Power Authority as at March 31, 1969, and the statements of net income and source and application of funds for the year then ended. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

As explained in Note 1 to the accompanying financial statements, an accounting practice has been adopted, for the Peace River project, of transferring the construction costs of the dam, powerhouse, and other common property to plant in service by instalments proportionate to the number of completed and operational generating units in relation to the whole number presently contemplated. Taking into consideration the long-term planning and development of the Peace River project, we are of the opinion that this practice results in a fair presentation of financial information for the project.

In our opinion, these financial statements present fairly the financial position of the Authority as at March 31, 1969, and the results of its operations and the source and application of its funds for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

BRITISH COLUMBIA HYDRO AND POWER AUTHORITY—Continued**NOTES TO FINANCIAL STATEMENTS AS AT MARCH 31, 1969**

NOTE 1—PEACE RIVER PROJECT.—Economic considerations have dictated construction of a dam, powerhouse, and other common property for the Peace River project to provide capacity for up to 10 generating units. The dam and powerhouse have been completed, but the generating units are being installed over a period of several years to keep pace with the increase in demand for power.

Accordingly, the Authority has adopted an accounting practice of transferring the construction costs of the dam, powerhouse, and other common property to plant in service by instalments proportionate to the number of completed and operational generating units in relation to the 10 units presently contemplated. The transfers are to be completed during a period of not more than seven years. Three generating units were installed and placed in operation during the year ended March 31, 1969; consequently, 30 per cent of the dam, powerhouse, and other common property costs was transferred to plant in service and, in accordance with the Authority's practice, provisions for depreciation will commence thereon effective April 1, 1969.

The costs of the dam, powerhouse, and other common property not yet transferred to plant in service are shown separately as deferred costs under property account. These costs will continue to attract interest charged to construction.

Long-term debt	\$1,305,940,767
Sinking fund instalments due within one year, included in current and accrued liabilities	14,411,863
	<u>\$1,320,352,630</u>

NOTE 3—GUARANTEE BY PROVINCE OF BRITISH COLUMBIA.—The Government of the Province of British Columbia has unconditionally guaranteed the principal and interest of the long-term debt and parity development bonds.

NOTE 4—INTEREST.—Included in interest on debt for the year ended March 31, 1969, is \$1,801,920 for amortization of discount and expense on long-term debt and parity development bonds, and there has been deducted \$3,759,792 for income from sinking fund investments.

The interest rate on parity development bonds was increased from 5½ to 6½ per cent, effective August 3, 1968.

NOTE 5—COLUMBIA RIVER TREATY.—The Authority is the Canadian Entity for purposes of the Columbia River Treaty between Canada and the United States and is required to construct three storage dams—Duncan, Arrow, and Mica. Canada's entitlement to half the increased power generation in the United States resulting from the construction of the three dams was sold to the Columbia Storage Power Exchange for periods of 30 years from the scheduled dates of completion of the respective dams. The consideration for this sale was received by the Government of British Columbia and transferred to the Authority. Payments are receivable by the Government of British Columbia for providing flood control as each of the storage dams becomes operational. Duncan and Arrow storage projects have been declared operational, and payments totalling \$67,838,844 for flood control have been received and transferred to the Authority. Because Duncan and Arrow Dams were completed ahead of schedule, the Authority benefited by receiving a share of the additional power generated downstream in the United States and Canada. These various payments and benefits, with interest, aggregated \$418,722,167 as at March 31, 1969:—

Amount received from sale of entitlement to downstream benefits	\$273,291,661
Flood-control benefits	67,838,844
Additional downstream benefits (net)	6,445,999
Interest (including charges to construction of \$31,042,869)	71,145,663
	<u>\$418,722,167</u>

The Authority is liable under certain covenants to make compensation to the Columbia Storage Power Exchange if the Mica storage dam, the only one of the three dams still under construction, is not operational by the agreed date of April 1, 1973. The Authority also has obligations relating to the operation and maintenance of the three storage dams.

NOTE 6—STABILIZATION OF RATES AND CONTINGENCY RESERVE:

Balance as at March 31, 1968	\$76,337,715
Net income for the year ended March 31, 1969	9,283,868
	<u>—————</u>
Balance as at March 31, 1969	<u>\$85,621,583</u>

NOTE 7—PENSION PLANS.—Employees of the Authority are covered under contributory pension plans, and provisions are being made for current services according to the requirements of the various plans. Provision has been made for all past service costs under these plans with the exception of those relating to a contributory plan introduced effective January 1, 1965. Employees may elect, by a date to be fixed by the Authority, to transfer from previous plans to this plan. Some transfers will depend upon an examination being made of recent amendments to the previous plans and their relationship to the Canada Pension Plan. Although the number of employees who will eventually transfer to the 1965 contributory plan is not known, the actuary for the plan has made a calculation of past service costs of this plan based on the number of employees already transferred and an estimate of the number who will transfer. The Authority is funding these costs by annual payments of \$393,800 over a 15-year period which commenced April 1, 1967.

NOTE 8—COMMITMENTS.—Purchase commitments and contracts of the Authority for capital projects and inventories of materials and supplies aggregated approximately \$237,000,000 as at March 31, 1969, which includes contracts in respect of the general commitment of the Authority to construct the Mica Dam on the Columbia River (Note 5).

AUDITOR'S REPORT

(Report by Buttar & Chiene, Chartered Accountants, Vancouver, British Columbia, upon the Accounts of the Pacific Great Eastern Railway Company, as at December 31, 1968)

We have examined the balance-sheet of the Pacific Great Eastern Railway Company as at December 31, 1968, and the statement of consolidated income for the year ended on that date and have received all the information and explanations required by us.

The statements for the current year are prepared in conformity with the Uniform Classification of Accounts prescribed by the Board of Transport Commissioners for Canada.

Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion, and according to the best of our information, the explanations given to us, and as shown by the books of the Company, the accompanying balance-sheet and statement of consolidated income present fairly the financial position of the Company as at December 31, 1968, and the results of its operations for the year ended on that date, in accordance with generally accepted accounting principles applied on a basis consistent with that of the previous year.

Reported by,

BUTTAR & CHIENE, Chartered Accountants.

AUDITOR'S CERTIFICATE

The accounts of the Workmen's Compensation Board for the year ended December 31, 1968, have been examined under my direction, and I have obtained all the information and explanations I have required.

The accompanying statements of assets and liabilities (fund balances) and the condensed statement of fund transactions are as shown by the books of the Board.

In my opinion, the accompanying statement of assets and liabilities (fund balances) and the condensed statement of fund transactions present fairly the financial condition of the Board as at December 31, 1968, and the results of its operation for the year then ended.

C. J. FERBER, C.A.,
Comptroller-General, Province of British Columbia.
